## Sub: Well Marked Low Pressure Area over northeast Madhya Pradesh & adjoining southwest Uttar Pradesh

The depression over northeast Madhya Pradesh moved west-northwestwards and weakened into a Well Marked Low Pressure Area over northeast Madhya Pradesh and adjoining southwest Uttar Pradesh at 0530 hours IST of today, the 18th September 2024.

It is likely to move further nearly west-northwestwards across northeast Madhya Pradesh and southwest Uttar Pradesh and gradually weaken into a low pressure area during next 24 hours.

### Warnings:

#### (i) Rainfall warning

**Madhya Pradesh:** Light to moderate rainfall at most places with **heavy to very heavy rainfall** at isolated places is likely over north Madhya Pradesh on 18<sup>th</sup> September.

**Uttar Pradesh:** Light to moderate rainfall at many places with **heavy to very rainfall** at isolated places over Southwest Uttar Pradesh and isolated **heavy rainfall** over southeast Uttar Pradesh on 18<sup>th</sup> September.

**East Rajasthan:** Light to moderate rainfall at many places with **heavy rainfall** at isolated places over northeast Rajasthan on 18<sup>th</sup> September.

#### (ii) Wind warning:

Strong wind speed reaching 25-35 kmph gusting to 45 kmph over northeast Madhya Pradesh and adjoining southwest Uttar Pradesh during next 24 hours.

## Impact Expected (North Madhya Pradesh, Southwest Uttar Pradesh and East Rajasthan due to heavy rainfall and strong winds)

- ✓ Localized Flooding of roads, water logging in low lying areas and closure of underpasses mainly in urban areas of the above region.
- ✓ Occasional reduction in visibility due to heavy rainfall.
- ✓ Disruption of traffic in major cities and roadways due to water logging in roads and poor visibility due to heavy rain leading to increased travel time and incidents
- ✓ Likely disruption of inland water transportation like small boats.
- ✓ Minor damage to kutcha roads.
- ✓ Possibilities of damage to vulnerable structure.
- ✓ Localized Landslides/Mudslides/landslips/mud slips/land sinks/mud sinks.
- ✓ Damage to horticulture and standing crops in some areas due to inundation and wind.
- ✓ It may lead to riverine flooding in some river catchments (for riverine flooding please visit Web page of CWC)

## Action Suggested (North Madhya Pradesh, southwest Uttar Pradesh and East Rajasthan due to heavy rainfall and strong winds)

- ✓ Judicious regulation of surface transports including railways.
- ✓ Check for traffic congestion on your route before leaving for your destination.
- ✓ Follow any traffic advisories that are issued in this regard.
- ✓ Avoid going to areas that face the water logging problems often.
- ✓ Avoid staying in vulnerable structure.

#### Agromet advisories for Heavy Rainfall likely over various parts of the country

- ✓ Provide mechanical support to horticultural crops & staking to vegetables.
- ✓ Keep the harvested produce at safer places.

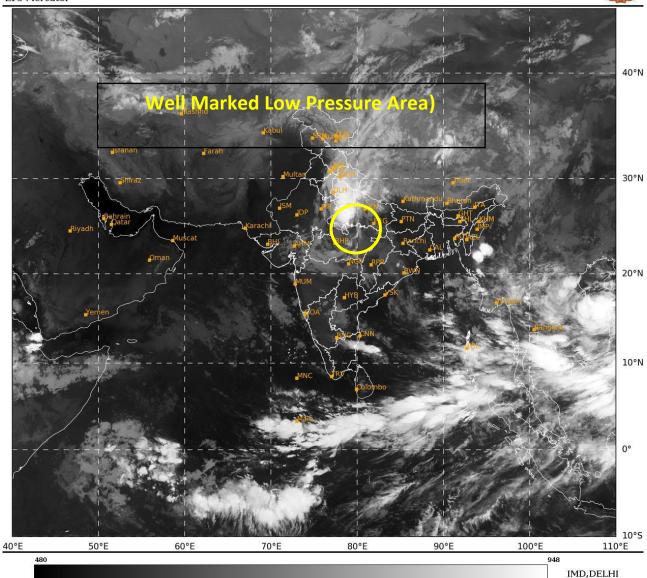

Significant amount of rainfall (from 0830 hours IST of 17<sup>th</sup> September to 0530 hours IST of 18th September) (in cm) is placed at Annexure-1.

This is last update in association with this system. However, regular weather bulletins will continue from National Weather Forecasting Centre and respective Regional Meteorological Centres and Meteorological Centres in association with the Well Marked Low Pressure Area over northeast Madhya Pradesh & adjoining southwest Uttar Pradesh.
