Sub: Depression over southeast Uttar Pradesh weakened into a Well Marked Low Pressure Area over central parts of Uttar Pradesh

Depression over southeast Uttar Pradesh moved north-northwestwards and weakened into a Well Marked Low Pressure area over central parts of Uttar Pradesh at 0530 hrs IST of today, the 27th September 2026.

It is very likely to move north-northwestwards across Uttar Pradesh and weaken gradually into a Low Pressure Area during next 12 hours.

The system is under continuous surveillance by Doppler Weather Radar at Lucknow.

Warnings:

(i) Rainfall Warning:

East Uttar Pradesh: Light to moderate rainfall at most places with **Heavy rainfall** at isolated places on 27th September.

West Uttar Pradesh: Light to moderate rainfall at most places with **heavy to very heavy rainfall** at isolated places on 27th September.

Himachal Pradesh: Light to moderate rainfall at most places with **heavy to very heavy rainfall** at isolated places on 27th September.

Uttarakhand: Light to moderate rainfall at most places with **heavy to very heavy rainfall** at a few places and **extremely heavy rainfall** at isolated places is very likely on 27th and **heavy rainfall** at isolated places on 28th September.

(ii) Wind warning:

Squally wind with speed reaching 30-40 kmph gusting to 50 kmph is likely to prevail over north Uttar Pradesh & adjoining areas of Uttarakhand on 27th September and decrease gradually thereafter.

(iii) Impact expected (Uttar Pradesh, Uttarakhand and Himachal Pradesh for heavy rainfall):

- ❖ Breaking of tree branches, uprooting of small trees like banana, papaya, drum sticks.
- ❖ Strong wind and rain may damage plantation, horticulture and standing crops.
- ❖ Partial damage to vulnerable structures due to strong wind & heavy rain.
- ❖ Minor damage to kutchha houses/walls, huts and roads due to heavy rain.
- ❖ Road and rail traffic may be affected due to heavy rain and squally winds.
- ❖ There could be localised landslides, mudslides, landslips in hilly areas and water logging, inundation and flooding over low-lying areas.
- ❖ Occasional reduction in visibility due to heavy rainfall.
- ❖ Helicopter services may get affected.

Action suggested:

- ❖ People are advised to keep a watch on the weather for worsening conditions and be ready to move to safer places accordingly. People may stay in safe places.
- ❖ Surface transport, Tourism and recreational activities to be regulated.
- ❖ Helicopter services to be regulated.
- ❖ Take safe shelters; do not take shelter under trees, as there could be lightning.
- ❖ In case of expected lightning, unplug electrical/ electronic appliances, immediately, get out of water bodies and keep away from all the objects that conduct electricity.

This is the last update about the system. However, regular bulletins/messages regarding the remnant Well Marked Low Pressure Area will continue from National Weather Forecasting Centre/Regional Meteorological Centres/Meteorological Centres.
