Tableau of India Meteorological Department (IMD), Ministry of Earth Sciences (MoES) in the Republic Day 2025 Parade magnificently depicted transformative contributions of IMD to the Meteorology and Society since 1875: Dr. Jitendra Singh

**“मौसम के बदलते रंग, 150 वर्षों से आईएमडी है संग”**

The Tableau also depicted continued support of the Ministry’s scheme for development of weather and climate science and services including **“Mission Mausam”** recently launched by **Hon’ble Prime Minister of India, Shri Narendra Modi Ji**.

Speaking about IMD’s tableau in the Republic Day Parade, the Union Minister of Science and Technology and Minister of Earth Sciences (Independent Charge) Dr. Jitendra Singh said that the Tableau of the Ministry echoes 150 years of service of IMD to the nation with the slogan **“मौसम के बदलते रंग, 150 वर्षों से आईएमडी है संग”**.

It showcased Prime Minister Shri Narendra Modi’s unwavering commitment to empowering scientific community for the service to the society. **According to the Hon’ble PM, “IMD has not only served crores of Indians in these 150 years, but has become a symbol of India’s scientific journey.”**

### Hon'ble Minister, Secretary MoES and DG IMD witnessing the Tableau in the Republic Day Parade: Proud Moment

The tableau of IMD, MoES presented a narration of empowerment of the society to save life and property from weather related disasters, like the cyclones, thunderstorms, lightning, heat wave, heavy rainfall etc.

It showcased multi-faceted sectoral applications of weather and climate for the farmers, fishermen community on one hand and to industries like aviation, ports & shipping on the other hand.

It reflects the pivotal role of MOES in building resilience through accurate and timely services blending innovation with a human centric approach.

(a) The front section of the tableau highlights the Ministry's cyclone awareness efforts with a **striking depiction of cyclone Dana**, symbolizing the **life-saving impact of timely warnings that ensured zero deaths**.

(b)

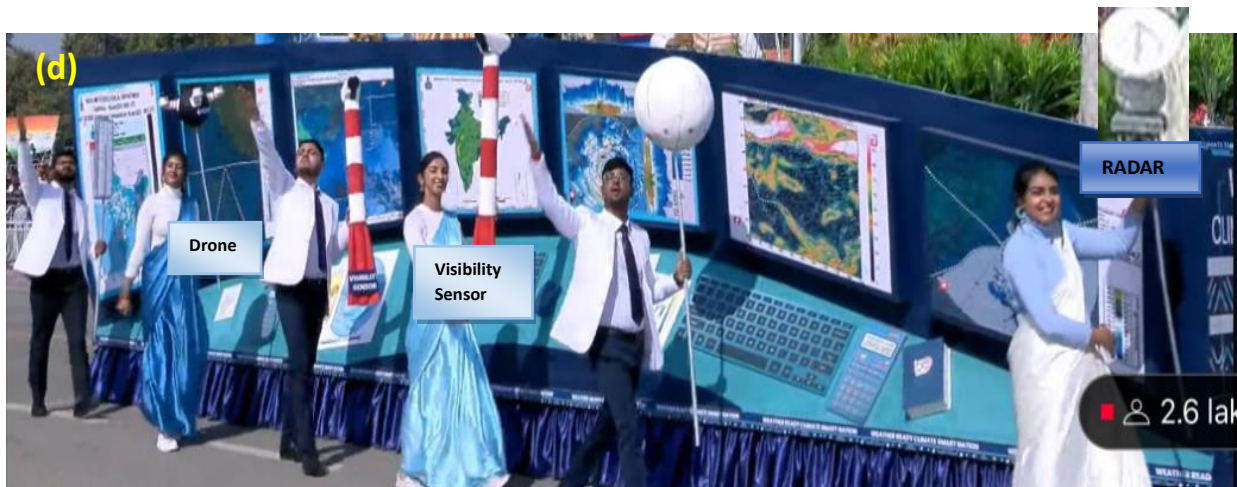

(c)

(b) The middle section emphasizes initiatives for farmers, demonstrating how mobile weather alerts have revolutionised agriculture by enabling improved crop management and improving livelihoods.

(c) The rear section portrays the Ministry's impact on fishing community who avoid dangerous seas, pilots who fly safely, mothers who protect children from extreme weather and scientists who study climate change to better understand our planet.

(d)

(d) Live characters enhance the tableau by holding meteorological instruments, symbolizing the ministry's dedication to collecting and analyzing data for weather and climate forecasting.

**The vibrant tableau conveyed the message that the weather forecasts and early warnings are the back bone for developing "Weather Ready and Climate Smart Bharat".**
