|                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Synoptic Situation | <p>The Northern Limit of Monsoon continues to pass through 22°N/60°E, 22°N/65°E, Jamnagar, Udaipur, Ajmer, Jhunjhunu, Hisar, Bhatinda and 32.5°N/70°E as on 5th July. The shear zone roughly along latitude 21°N between 3.1 &amp; 7.6 km above mean sea level persists. The off-shore trough at mean sea level from south Gujarat to Kerala coast persists. An upper air cyclonic circulation lies over eastcentral Arabian sea adjoining Maharashtra coasts at 5.8 km above mean sea level. Southwest monsoon Strong to vigorous over West Central Arabian Sea , Strong over North East South of Latitude 22 Deg. North and East Central Arabian Sea, moderate to Strong over Northwest Arabian Sea South of Latitude 22 Deg. North and Southwest Arabian Sea , Moderate over Southeast Arabian Sea . Weather seasonal over rest Arabian Sea.</p> |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

#### North West Arabian Sea

|               |                                                         |
|---------------|---------------------------------------------------------|
| Wind          | Mainly Southwesterly 20 to 25 Knots Gusting to 30 Knots |
| Weather       | Isolated Rain/Thundershowers.                           |
| Visibility    | Moderate becoming poor in Rain or Thundershowers.       |
| Sea Condition | Rough to Very Rough                                     |

#### North East Arabian Sea

|               |                                                                           |
|---------------|---------------------------------------------------------------------------|
| Wind          | Southwesterly to Westerly 20 to 25 Knots Gusting to 30 Knots              |
| Weather       | Scattered Rain/Thundershowers with isolated squall.                       |
| Visibility    | Moderate becoming poor in Rain or Thundershowers and very poor in squall. |
| Sea Condition | Rough to Very Rough                                                       |

#### West Central Arabian Sea

|      |                                                               |
|------|---------------------------------------------------------------|
| Wind | Southerly to Southwesterly 30 to 35 Knots Gusting to 40 Knots |
|------|---------------------------------------------------------------|

|               |                                                   |
|---------------|---------------------------------------------------|
| Weather       | Isolated Rain/Thundershowers.                     |
| Visibility    | Moderate becoming poor in Rain or Thundershowers. |
| Sea Condition | Very rough to high                                |

#### East Central Arabian Sea

|               |                                                                           |
|---------------|---------------------------------------------------------------------------|
| Wind          | Southwesterly to Westerly 30 to 35 Knots Gusting to 40 Knots.             |
| Weather       | Fairly Widespread Rain/Thundershowers with isolated squall.               |
| Visibility    | Moderate becoming poor in Rain or Thundershowers and very poor in squall. |
| Sea Condition | Very rough to high                                                        |

#### South West Arabian Sea

|               |                                                                                                                                                                       |
|---------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Wind          | West of Longitude 60 Deg. East: Mainly Southwesterly 25 to 30 Gusting to 35 Knots; East of Longitude 60 Deg. East: Mainly Southwesterly 20 to 25 Gusting to 30 Knots. |
| Weather       | Isolated Rain/Thundershowers.                                                                                                                                         |
| Visibility    | Good except in Rain/Thundershowers.                                                                                                                                   |
| Sea Condition | Rough to Very Rough                                                                                                                                                   |

#### South East Arabian Sea

|               |                                                               |
|---------------|---------------------------------------------------------------|
| Wind          | Southwesterly to Westerly 15 to 20 Knots Gusting to 25 Knots. |
| Weather       | Isolated Rain/Thundershowers.                                 |
| Visibility    | Good except in Rain/Thundershowers.                           |
| Sea Condition | Moderate to Rough                                             |

#### Lakshadweep Area

|               |                                                               |
|---------------|---------------------------------------------------------------|
| Wind          | Southwesterly to Westerly 15 to 20 Knots Gusting to 25 Knots. |
| Weather       | Isolated Rain/Thundershowers.                                 |
| Visibility    | Good except in Rain/Thundershowers.                           |
| Sea Condition | Moderate to Rough                                             |

#### Maldives Area

|               |                                              |
|---------------|----------------------------------------------|
| Wind          | Mainly Westerly 15 to 20 Gusting to 25 Knots |
| Weather       | Isolated Rain/Thundershowers.                |
| Visibility    | Good except in Rain/Thundershowers.          |
| Sea Condition | Moderate to Rough                            |
