SEA AREA BULLETIN

**AURORA OBSERVATION:**

**SEA AREA FORECAST VALID FOR 12 HOURS FROM 09 UTC OF 15-Oct-2025**

**Part One:**

|                    |                   |
|--------------------|-------------------|
| <b>TTT Warning</b> | No storm warning. |
|--------------------|-------------------|

**Part Two:**

|                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Synoptic Situation</b> | <p>The upper air cyclonic circulation over coastal Tamil Nadu &amp; adjoining Comorin Area extending upto 1.5 km above mean sea level persists.</p> <p>The upper air cyclonic circulation over southeast Arabian Sea &amp; adjoining Equatorial Indian Ocean now lay over southeast Arabian Sea &amp; adjoining Lakshadweep area and extends upto 5.8 km above mean sea level tilting southward with height. Under its influence, a low pressure area is likely to form over southeast Arabian Sea &amp; Lakshadweep area off Kerala-Karnataka coasts around 19th October, 2025.</p> <p>The upper air cyclonic circulation over westcentral Arabian Sea extending upto 1.5 km above mean sea level has become less marked.</p> |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**Part Three :**

**North East Arabian Sea:**

|                      |                                                                |
|----------------------|----------------------------------------------------------------|
| <b>Wind</b>          | Northerly to Northeasterly 10 to 15 knots gusting to 20 knots. |
| <b>Weather</b>       | Isolated Rain/Thundershowers.                                  |
| <b>Visibility</b>    | Good except in Rain/Thundershowers                             |
| <b>Sea Condition</b> | Slight.                                                        |

**North West Arabian Sea:**

|                      |                                                                                                                                                                                   |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Wind</b>          | East of 62 deg East Long: Northwesterly to Northerly 10 to 15 knots gusting to 20 knots; West of 62 deg East Long: Southerly to Southeasterly 10 to 15 knots gusting to 20 knots. |
| <b>Weather</b>       | Isolated Rain/Thundershowers.                                                                                                                                                     |
| <b>Visibility</b>    | Good except in Rain/Thundershowers                                                                                                                                                |
| <b>Sea Condition</b> | Slight.                                                                                                                                                                           |

**East Central Arabian Sea:**

|                      |                                                                       |
|----------------------|-----------------------------------------------------------------------|
| <b>Wind</b>          | Northerly to Northeasterly 10 to 15 knots gusting to 20 knots.        |
| <b>Weather</b>       | Scattered Rain/Thundershowers with isolated squall.                   |
| <b>Visibility</b>    | Good becoming poor in Rain or Thundershowers and very poor in squall. |
| <b>Sea Condition</b> | Slight.                                                               |

**West Central Arabian Sea:**

|                      |                                                                |
|----------------------|----------------------------------------------------------------|
| <b>Wind</b>          | Northerly to Northeasterly 10 to 15 knots gusting to 20 knots. |
| <b>Weather</b>       | Scattered Rain/Thundershowers.                                 |
| <b>Visibility</b>    | Good becoming poor in Rain or Thundershowers.                  |
| <b>Sea Condition</b> | Slight to Moderate                                             |

**South East Arabian Sea:**

|               |                                                                           |
|---------------|---------------------------------------------------------------------------|
| Wind          | Northwesterly to Westerly 15 to 20 knots gusting to 25 knots.             |
| Weather       | FairlyWidespread Rain/Thundershowers with isolated squall.                |
| Visibility    | Moderate becoming poor in Rain or Thundershowers and very poor in squall. |
| Sea Condition | Moderate                                                                  |

|                         |                                                                                                                                                                                  |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| South West Arabian Sea: |                                                                                                                                                                                  |
| Wind                    | East of 55 deg East Long: Westerly to Northwesterly 15 to 20 knots gusting to 25 knots; West of 55 deg East Long: Southerly to Southwesterly 10 to 15 knots gusting to 20 knots. |
| Weather                 | Scattered Rain/Thundershowers.                                                                                                                                                   |
| Visibility              | Good becoming poor in Rain or Thundershowers.                                                                                                                                    |
| Sea Condition           | Moderate                                                                                                                                                                         |

|                   |                                                                           |
|-------------------|---------------------------------------------------------------------------|
| Lakshadweep Area: |                                                                           |
| Wind              | Northwesterly to Westerly 15 to 20 knots gusting to 25 knots.             |
