|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Synoptic Situation | <p>The Southwest Monsoon has further advanced into remaining parts of north Arabian Sea, Rajasthan, Haryana &amp; Punjab, today the 09th July, 2026. Thus, it has covered the entire country on 09th July, 2026, against the normal date of 08th July (1 day after the normal date of covering the entire India). The off-shore trough at mean sea level now runs from south Gujarat to north Kerala. The trough from Northeast Arabian Sea to Sikkim across Gujarat, cyclonic circulation associated with Well Marked Low Pressure area over Northeast Madhya Pradesh &amp; adjoining Southeast Uttar Pradesh, and Bihar between 3.1 &amp; 7.6 km above mean sea level has become less marked. Southwest monsoon vigorous over West Central &amp; Southwest Arabian Sea, Strong over East Central, Northeast and Northwest Arabian sea, moderate over Southeast Arabian sea.</p> |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

#### North West Arabian Sea

|               |                                                          |
|---------------|----------------------------------------------------------|
| Wind          | Mainly Southwesterly 20 to 25 knots gusting to 30 knots. |
| Weather       | Isolated Rain/Thundershowers.                            |
| Visibility    | Good becoming poor in Rain or Thundershowers.            |
| Sea Condition | Moderate to Rough                                        |

#### North East Arabian Sea

|               |                                                          |
|---------------|----------------------------------------------------------|
| Wind          | Mainly Southwesterly 20 to 25 knots gusting to 30 knots. |
| Weather       | Scattered Rain/Thundershowers.                           |
| Visibility    | Good becoming poor in Rain or Thundershowers.            |
| Sea Condition | Moderate to Rough                                        |

#### West Central Arabian Sea

|      |                                                                                                                                                                    |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Wind | West of Latitude 55 Deg E : Southerly to Southwesterly 30-35 knots gusting to 40 knots; East of Latitude 55 Deg E : Mainly Southwesterly 25 to 30 knots gusting to |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|               |                                                   |
|---------------|---------------------------------------------------|
|               | 35 knots.                                         |
| Weather       | Scattered Rain/Thundershowers.                    |
| Visibility    | Moderate becoming poor in Rain or Thundershowers. |
| Sea Condition | Very rough to high                                |

#### East Central Arabian Sea

|               |                                                                           |
|---------------|---------------------------------------------------------------------------|
| Wind          | Southwesterly to Westerly 25 to 30 knots gusting to 35 knots.             |
| Weather       | Scattered Rain/Thundershowers with isolated squall.                       |
| Visibility    | Moderate becoming poor in Rain or Thundershowers and very poor in squall. |
| Sea Condition | Rough to Very Rough                                                       |

#### South West Arabian Sea

|               |                                                                                                                                                                              |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Wind          | West of Latitude 55 Deg E : Southerly to Southwesterly 30-35 knots gusting to 40 knots; East of Latitude 55 Deg E : Mainly Southwesterly 25 to 30 knots gusting to 35 knots. |
| Weather       | Scattered Rain/Thundershowers.                                                                                                                                               |
| Visibility    | Moderate becoming poor in Rain or Thundershowers.                                                                                                                            |
| Sea Condition | Very rough to high                                                                                                                                                           |

#### South East Arabian Sea

|               |                                                     |
|---------------|-----------------------------------------------------|
| Wind          | Mainly Westerly 15 to 20 knots gusting to 25 knots. |
| Weather       | Scattered Rain/Thundershowers.                      |
| Visibility    | Moderate becoming poor in Rain or Thundershowers.   |
| Sea Condition | Moderate to Rough                                   |

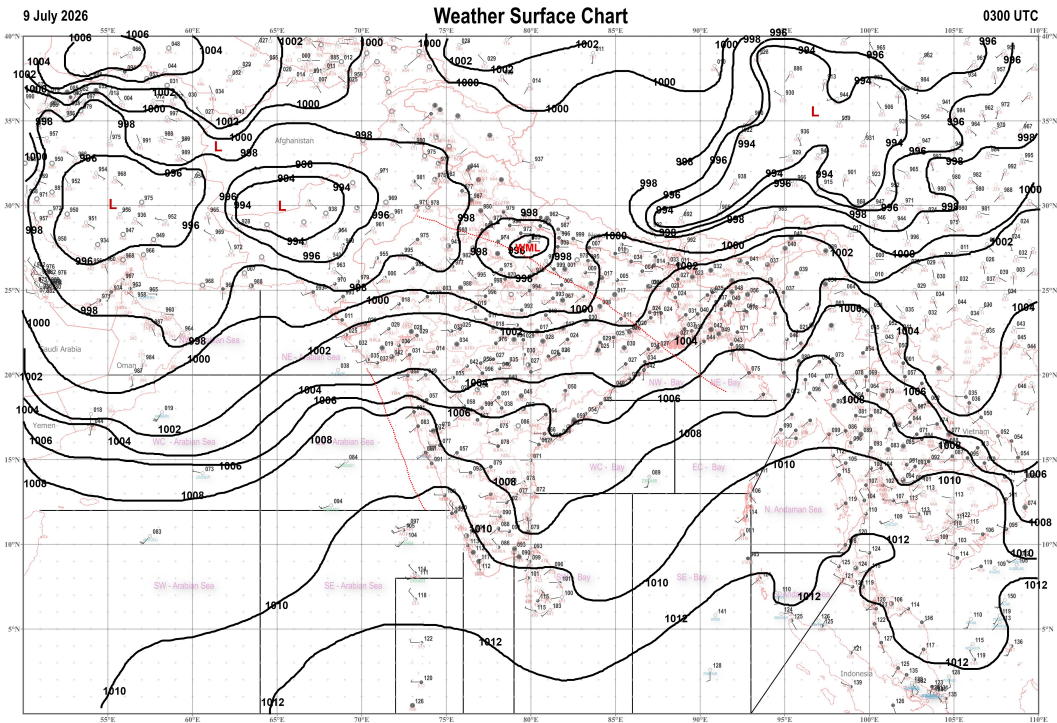

#### Lakshadweep Area

|               |                                                     |
|---------------|-----------------------------------------------------|
| Wind          | Mainly Westerly 15 to 20 knots gusting to 25 knots. |
| Weather       | Scattered Rain/Thundershowers.                      |
| Visibility    | Good becoming poor in Rain or Thundershowers.       |
| Sea Condition | Moderate to Rough                                   |

#### Maldives Area

|               |                                                     |
|---------------|-----------------------------------------------------|
| Wind          | Mainly Westerly 15 to 20 knots gusting to 25 knots. |
| Weather       | Scattered Rain/Thundershowers.                      |
