SEA AREA BULLETIN

AURORA OBSERVATIONS:

Sea Area forecast valid for 12 hours starting from 0900 UTC of 08/11/2021

Part One:

TTT Warning	Nil.
--------------------	------

Part Two:

Synoptic Situation	<p>The depression over eastcentral Arabian Sea moved west-northwestwards with a speed of 08 kmph during past 6 hours and lay centred at 0830 hrs IST of today, the 8th November, 2021, over east central Arabian sea near latitude 14.7° N and longitude 66.4°E, about 840 km west-southwest of Mumbai (Maharashtra) & 800 km west-southwest of Panjim (Goa). It is likely to move nearly westwards and weaken into a well marked low pressure area by tomorrow morning. Thereafter it is likely to move west-southwestwards.</p> <p>The trough in easterlies from the cyclonic circulation associated with the above depression over east central Arabian Sea to northeast Arabian Sea off south Gujarat coast extending upto 1.5 km above mean sea level has become less marked.</p> <p>Weather seasonal over rest of the Arabian Sea.</p>
---------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------
