## **DWR BHUJ**

Cyclone bulletin No.12

**Cyclone: BIPARJOY** 

Time: 16/06/2023 01:51 IST

| 1 | Name of the Station                          | DWR BHUJ                              |
|---|--|---------------------------------------|
| - | Traine of the Station                        | 23.24N, 69.64E, 100 mtr               |
| 2 | Date & Time of observation (UTC)             | 15/06/2023 20:21 UTC                  |
| 3 | Name of Cyclone                              | BIPARJOY                              |
| 4 | Information about the Eye of the Cyclone     |                                       |
| - | a)Is the Eye Visible                         | Visible                               |
|   | b)Shape of the Eye                           | Ragged Eve                            |
|   | c)Diameter of the Eye (km)                   | Kaggeu Eye                            |
|   | d)Estimation of centre of the cyclone based  |                                       |
|   | on Eye/Spiral band observation               |                                       |
|   | e)Echo top (20 dBZ level) of rain bearing    | 6.0km                                 |
|   | clouds around the cyclone within 100 km      | 0.0Km                                 |
|   | radius                                       |                                       |
|   | f) Maximum radar reflectivity (dBZ) in eye   | 43.0 dBZ/4.0km(Height)/Az185 deg      |
|   | wall and Spiral band region, its height (km) | /range: 120km                         |
|   | and position (azimuth and distance from      |                                       |
|   | the radar)                                   |                                       |
|   | g) Maximum reflectivity at any other area    | 39.0 dBZ/3.5km(Height)/Az 260 deg     |
|   | (spiral/streamers etc)                       | /range: 130km                         |
|   | h) Maximum velocity in observed (mps),       | 39 mps/Az 320 to 350 deg/range 25     |
|   | and its position (azimuth and distance from  | km from Radar                         |
|   | the Radar)                                   |                                       |
|   | i) Maximum velocity in any other area        | -                                     |
|   | (spiral / streamers / rain shields etc)      |                                       |
| 5 | Tendency of the Cyclone                      |                                       |
|   | a. Intensity(Increasing/Decreasing)          | Stable                                |
|   | b. Duration for which the information        | 1 hour                                |
|   | on movement pertains to                      |                                       |
|   | c. Direction of Movement                     | NE                                    |
|   | d. Estimated speed of Movement               | 20 km (approx.)                       |
| 6 | Any other Significant Feature                | Rainfall very likely over many places |
|   |  | viz.,Okha,Dwarka,Jamnagar,Rajkot.     |
|   |  | Morbi,Ghandhidham, Bhuj, Mundra,      |
|   |  | Dholavira,Bhachau,Lakhpat,Mandvi,     |
|   |  | Rapar,Naliya, Khavda, Nakhatrana,     |
|   |  | north east Kutch and coastal areas of |
|   |  | Kutch, Very Strong Winds              |
| 7 | Confidence                                   | Good                                  |

Priti Sharma OFFICER IN-CHARGE DWR Bhuj
