## DWR VIZAG CYCLONE BULLETIN

## CYCLONE BULLETIN NO: 22 CYCLONE: GULAB TIME: 26-09-2021 12:00 UTC

| 1. | Name of the station                                     | DWR VSK                    |
|----|---|----------------------------|
| 2. | Date and Time of Observation (UTC)                      | 1200 UTC                   |
| 3. | Name of the Cyclone                                     | GULAB                      |
| 4. | Information about the eye of the Cyclone                |                            |
|    | a. Is the Eye Visible                                   | NO                         |
|    | b. Shape of the Eye                                     | -                          |
|    | c. Diameter of the Eye(km)                              | -                          |
|    | d. Estimation of centre of the cyclone based on         | 18.37° N / 84.58° E        |
|    | Eye/spiral band observation                             | Az Ang 61.7°               |
|    |   | Distance from DWR: 148 kms |
|    | e. Echo top height of rain bearing clouds around the    | 18 kms                     |
|    | cyclone within 100 Km radius (km)                       |                            |
|    | f. Maximum radar reflectivity (dBZ) & rainfall rate     | 50 dBZ                     |
|    | (mm/h) in the eye wall/spiral band region, its          | Height: 18 kms             |
|    | height (km) and position (azimuth and distance from     | Distance: 128 kms          |
|    | the radar)  |                            |
|    | g. Maximum reflectivity at any other area (spiral/      | -                          |
|    | streamers etc)  |                            |
|    | h. Maximum radial velocity in eye wall/spiral band      | -                          |
|    | region (mps), its height (km) and its position (azimuth |                            |
|    | and distance from the Radar)                            |                            |
|    | i. Maximum velocity in any other area (spiral /         | 28 m/s (Radial)            |
|    | streamers / rain shields etc)                           |                            |
| 5. | Tendency of the Cyclone                                 |                            |
|    | a. Intensity(Increasing/Decreasing)                     | -                          |
|    | b. Duration for which the information on movement       | 1 hour                     |
|    | pertains to   |                            |
|    | c. Direction of Movement                                | WSW                        |
|    | d. Estimated speed of Movement                          | 21.84 kmph                 |
| 6. | Any other Significant Feature                           |                            |
| 7. | Confidence  | Poor                       |
